

Winter at Megri

FOR FAMILIES AND GROUPS DURING THE WINTER HOLIDAYS

Spend a relaxing winter holiday with your family or friends in Northern Karelia! Staying with us will get you from work mode to holiday spirits in no time. At lake Mekrijärvi in Ilomantsi, you can enjoy good company, delicious meals and all the fun winter has to offer.

In Ilomantsi, you get to experience the Finnish winter at its finest: we always get snow here, and the well-maintained ski tracks are only a 15-minute drive away, near the local public swimming pool. We offer guided snowshoeing trips in the beautiful scenery around Megri and ice-fishing trips to lake Mekrijärvi. If inspiration strikes, we can always make some snow sculptures or go downhill sledding – the choice is yours. If you are more of an indoors person or feel like warming up between the outdoor activities, you can always book a body conditioning or Pilates class.

And when you find yourself hungry afterwards, Megri's hostess Anita will be ready to serve one of her tasty and filling meals. If you want to get to know the traditional cuisine a bit more, you can book a pasty tasting in advance, or go for a refreshing peat treatment or body conditioning class.
